28 March 2022

**Subject: Official Information Act request re: Covid hospitalisations**

Thank you for your request for information under the Official Information Act received by Lakes DHB on 22 February 2022. You have asked:

***Please supply hospitalisation caused solely by covid 19, where covid is the only diagnosis listed, broken down by age group 0-9, 10-19, 20-29, 30-39, 40-49, 50-59, 60-69, 70-79, 80-89, 90+, and by gender, and by vaccination / or non-vaccination status between Feb 1 2020 up to and including Jan 31 2022.***

Please note this slight change in dates is because we have already collated this information for very similar dates.

Sixteen (16) patients had COVID-19 and were admitted into our hospital facilities between March 2020 and Feb 2022. Lakes DHB is unable to say if this was solely due to COVID.

For vaccination status:

<b>COVID vaccination status</b>	
None	12
First dose	1
Second dose	3
Booster dose	0
Total	16
