

Delirium study days 2022

18th May
28th September

Course runs from 0800—1630
Venue: Boardroom

AIM: Improve nursing knowledge about prevention, early identification and management of Delirium using LDHB Delirium Pathway & Resources.

OBJECTIVES:

1. Identify causes and risk factors of Delirium, including common differential diagnosis.
2. Utilize 4AT as a screening tool and explore the role of TIME Bundle and Daily Supervision and Engagement Assessment Tool in caring for patients with Delirium.
3. Discuss types of Delirium and specific nursing management, including pharmacological and non-pharmacological management of behaviours that challenge.
4. Encourage the use of 'Getting to Know Me' board and purposeful activities in planning and delivering patient care.
5. Explore ways on how to prevent delirium in patients admitted in the hospital.
