Midwifery Council Recertification Requirements

may change next triennium (1st April 2022)

This is intended as a brief guide. Please refer to the Midwifery Council website for full details or contact the Council directly. <https://www.midwiferycouncil.health.nz>

Mandatory Education

-  **Midwifery Emergency Skills Refresher (MESR)** This is the practical/ hands on day refreshing management of emergency situations. **REMAINS ANNUAL**. The PROMPT course once every 3 years is an alternative (if doing PROMPT, separate NLS is required either full day or as a refresher - which is part of the MESR workshop).
-  **Newborn Life Support (NLS)** also remains an **ANNUAL** requirement for all midwives. At Lakes DHB, a full day is required once every 3 years with an NLS refresher in the years in between. NLS refreshers for midwives are now part of MESR or Combined emergency skills day.
-  Attend a minimum of 8 hours MIDWIFERY-FOCUSED education. EACH YEAR.
-  Engage in PROFESSIONAL ACTIVITIES of a minimum of 8 hours. EACH YEAR.
-  Participate in Midwifery Standards Review once EVERY 3 YEARS (starts from your next review). Different for new graduates/overseas midwives.

Following on from the previous recertification cycle, - as a reminder:

-  Breastfeeding as a mandatory recertification requirement has been removed. (There is still a BFHI mandatory requirement however for DHB staff. These hours can go towards your Midwifery focused elective education requirement).
-  Workshops no longer have points attached, and instead will be based on hours. A full day workshop will be 8 hours. Midwives should note that the requirement set by Midwifery Council is a MINIMUM of 8 hours each year. Midwives can and are encouraged to attend more than one educational activity based on each individual's professional development plan.

You are encouraged to go to the Midwifery Council website and check out YOUR Recertification status. If things don't look right, contact the Council asap! Then make a plan for the year on maintaining your practice certificate. Register on the courses, arrange leave and cover. Make a note in your diary and in the request book.

Still not sure what is what? ... print off your APC renewal requirements and come & chat. ☺

Kathleen
Clinical Midwife Educator

P Professional Development Plan	R Register on the course using appropriate form	A Arrange study leave or book LMC cover	D Diarize – put it in your diary	A Ask for help if you need a hand	R Note it in the Request book (DHB midwives)
